RE: Robert Huber v. Jeff Pugh  
Case No. 10-cv-435

Dear Judge Griesbach:

I have received the June 6, 2011 letter of the Respondent, which is thinly veiled attempt to persuade the court to allow the Respondent to argue against the issuance of a COA.

The Respondent, quite simply does not want to risk the 7th District correcting the error which this court made in concluding that Huber was on probation at the time of revocation.

As illustrated in his brief and in the Motion for Reconsideration, the records prove only that the DOC waited until after they had lost subject matter jurisdiction to obtain an alleged admission of guilt and formal tolling order.

This court has given the State a victory it does not deserve, and enforced a speculative conclusion with no basis in fact or law, and the Respondent is desperate to make sure that incorrect conclusion doesn't get reversed.

Respectfully

Robert Huber
